

## Words

*The letters in a word make up a family.*

*As a family,  
shoulder to shoulder we stand  
walking hand in hand.*

*The words in a sentence make up a  
neighborhood. Lots of families in a close  
area but each family with its own space.*

*When writing be sure the letters in each  
word are so close they almost touch each  
other. A finger width space separates the  
last letter of one word from the first letter  
for the next word.*
