The Coaches Code of Ethics: NFHS/NFCA

The function of a coach is to educate students through participation in interscholastic competition. An interscholastic program should be designed to enhance academic achievement and should never interfere with opportunities for academic success. Each student-athlete should be treated as though he or she were the coaches' own, and his or her welfare should be uppermost at all times. Accordingly, the following guidelines for coaches have been adopted by the NFCA Board of Directors.

The coach shall be aware that he or she has a tremendous influence, for either good or ill, on the education of the student-athlete and, thus, shall never place the value of winning above the value of instilling the highest ideals of character.

The coach shall uphold the honor and dignity of the profession. In all personal contact with student-athletes, officials, athletic directors, school administrators, the state high school athletic association, the media, and the public, the coach shall strive to set an example of the highest ethical and moral conduct.

The coach shall take an active role in the prevention of drug, alcohol and tobacco abuse.

The coach shall avoid the use of alcohol and tobacco products when in contact with players.

The coach shall promote the entire interscholastic program of the school and direct his or her program in harmony with the total school program.

The coach shall master the contest rules and shall teach them to his or her team members.

The coach shall not seek an advantage by circumvention of the spirit or letter of the rules.

The coach shall exert his or her influence to enhance sportsmanship by spectators, both directly and by working closely with cheerleaders, pep club sponsors, booster clubs, and administrators.

The coach shall respect and support contest officials. The coach shall not indulge in conduct which would incite players or spectators against the officials. Public criticism of officials or players is unethical.

Before and after contests, coaches for the competing teams should meet and exchange cordial greetings to set the correct tone for the event.

A coach shall not exert pressure on faculty members to give student-athletes special consideration. A coach shall not scout opponents by any means other than those adopted by the league and/or state high school athletic association.

Leon County Middle School Cheerleading Regulations

Modifications set aside by LCMSAA:

1. Any clarification of rules will be referred to the FHSAA regulation manual for interpretation.
2. Cheerleading practice may start the opening day of school and continue through the closing day of the school year with the permission of the principal.

*Cheerleading try-outs may take place in the spring or in the fall of each year. Each school is responsible for the coordination and advertising within the school of the dates and times for try-outs. Selection shall be the responsibility of the school. Squad size and final squad membership will be decided at the school level with the approval of the principal. **(Judges Panel must be diverse, and shall not be composed of anyone employed by a private cheer company.)***

3. Middle school cheerleaders are allowed to attend camps and clinics. The Activity Director and Principal of the school must approve these events in advance. (out of town summer camps cannot be mandatory)
4. Cheerleaders shall support all tackle football games, home games for volleyball and basketball, cheer clinic, and the Cheerleading Showcase. Cheerleaders may also attend all championship games if the school desires. All other athletic and non-athletic activities are optional and shall be left to the discretion of the principal and cheerleading sponsor.
5. Principal, sponsor, or designee (employee of the school board) shall accompany the groups when they are participating in an activity.
6. At basketball games, cheerleaders shall remain seated together on the first and second row or the second and third row of the bleachers while the game is in progress.
7. Cheerleaders shall not form more than two levels in height while doing stunts. All Basket Tosses must be performed with required spotters, and using a Cheer matt. (National Federation Rules)
8. Cheerleaders must alternate time-outs with other school's cheerleaders in all sports. The home team sponsor is responsible for the coordination of this prior to each game.
9. At the end of each basketball game cheerleaders shall remain seated long enough to allow the two teams to shake hands and allow a brief cool down period for the two teams. Cheerleaders then should approach only their team's huddle.
10. Cheerleaders shall observe the following procedure to encourage good sportsmanship at all activities: cheerleaders shall encourage cheers for their own school and avoid cheers, which would be derogatory to the opposing school.
11. Mascots are allowed.

Procedures for Requesting Funds for Additional Supplemented Athletic Activities

1. In order for an additional sport to be considered by the district for approval and funding. The sport must be at a minimum **a recognized sport** by the FHSAA, and authorized to conduct an invitational state championship series.
2. The school requesting funding for the additional sport must conduct an interest survey among all grade levels and genders at their particular school.
3. The Principal of each individual requesting school must submit in writing an official request for funding for an additional sport, indicating the results of their school's interest survey. This request is to be submitted to the Director of Interdivisional Support Services.
4. The Director of Interdivisional Support Services will contact the secondary schools involved to determine if a Majority of the schools are interested in offering an additional opportunity for their students. District-wide equity issues will be considered in this process.
5. If all of the above criteria are met, an official request from the Director of Interdivisional Support Services, as well as support from the majority of Principals from individual schools requesting an additional activity, shall be submitted to upper management. This request will be for additional supplement dollars to be added to the base for a particular activity, and for additional operational dollars to be added to the 23019 categorical dollars for student activities.
6. If the request is approved by the Superintendent, the proposal shall be submitted for negotiations with the Leon Classroom Teachers Association and implemented in the following school year upon agreement to include the new supplement in the collective bargaining contract supplement schedule.
7. All proposals are to be submitted no later than February 28 and approved by the Superintendent no later than March 31 of each year in order to be considered for implementation for the following school year.

**Student-Athlete Authorization
For Disclosure of Protected Health Information**

I, _____ parent or guardian of _____
(the "student athlete"), hereby authorize the physicians, athletic trainers, sports medicine staff and other health care personnel representing Tallahassee Orthopedic Clinic, P.A., ("Health Care Personnel") to release information regarding the student-athlete's protected health information and related information regarding any injury or illness during the student-athlete's training for and participation in athletics at _____ School (the "School"). This protected health information may concern the student-athlete's medical status, medical condition, injuries, prognosis, diagnosis, athletic participation status, and related individually identifiable health information. This protected health information may be released to other health care providers, hospitals and/or medical clinics and laboratories, athletic coaches, athletic and/or school administrators, medical insurance coordinators, chaplains and/or clergy members, and officials of the Florida High School Activities Association, Inc. I also authorize the athletic coaches, athletic and/or school administrators, and medical insurance coordinators at the School ("School Officials") as well as chaplains and/or clergy members, and officials of the Florida High School Activities Association, Inc. to release protected health information and related information regarding any injury or illness during the student-athlete's training to the Health Care Personnel.

I understand that as a parent/legal guardian my authorization/consent to the disclosure of the student-athlete's protected health information is required so that Health Care Personnel and School Officials can freely and fully discuss any medical or condition that affects the student student-athlete's participation in interscholastic sports at the School, and that failure to sign this form may affect the ability of student athlete to participate in interscholastic sports at the School. I understand that the student-athlete's protected health information is protected under the federal Health Insurance Portability and Accountability Act ("HIPAA") and related regulations, and may not be disclosed without my consent. I, the parent/legal guardian, understand that once information is disclosed per this authorization, the information is subject to re-disclosure by the recipient and may no longer be protected under HIPAA or federal law. I, the parent/legal guardian, understand that I may refuse to sign this authorization, but, if I do, the School's athletic trainer or physician is not allowed to discuss your son/daughter's treatment information with any person other than the parent or guardian. I may revoke this authorization at any time by notifying the School's athletic director in writing, but if I do, it will not have any effect on actions taken in reliance of my prior authorization. This authorization expires one year from the date it is signed.

I may request a notice of the complete description of such uses and disclosures prior to signing this consent. I am aware that the Leon County School District may change the terms of the notice at any time, and I reserve the right to request a revised notice.

I have the right to request that the Leon County School District and/or Health Care Personnel restrict how protected health information is used or disclosed to carry out treatment, payment or health care operations of my child. I understand that Leon County School District and/or Health Care Personnel are not required to agree to the requested restrictions; however, if the Leon County School District and/or Health Care Personnel do agree to a requested restriction, the restriction is binding on the Leon County School District or Health Care Personnel as the case may be.

LEON COUNTY SCHOOL DISTRICT

SAFETY GUIDELINES

Prior to participating, both the student and parent must read carefully.

BASEBALL/FASTPITCH

When a person is involved in any athletic activity, an injury can occur, especially in a contact sport. One should be aware the information presented in these safety guidelines is to inform the athlete of proper techniques and inherent dangers involved with this particular activity. There is a chance of broken bones, severe concussions, and back injuries, which could lead to some form of paralysis. Not all potential injury possibilities in this sport are listed, but athletes should be aware that fundamentals, coaching and proper-fitting equipment are important to the safety and enjoyment of the sport.

1. Proper warm-up is essential before strenuous activity takes place.
2. Proper protective equipment required by rule must be worn at practices and in competition.
3. Perform only those skills and techniques as instructed and/or supervised by your coach.
4. Travel to and from off-campus facilities and practice/competition sites must be in accordance with school procedures.
5. Remove all jewelry and metal hair fasteners and other body adornments as required by rules and regulations for baseball.
6. If you wear eyeglasses, contact the coach for proper fitting of safety lenses, appropriate frames that are compatible with baseball. If you have a bi or tri-focal lens, contact your doctor to provide the best len(s) combination for playing where tracking a fast moving object is paramount.
7. The bat can be potentially dangerous. Use only approved bats and use bats for their intended purpose.
8. Be aware of your surroundings both home and away including but not limited to batters warming up, thrown bats, thrown or batted balls, out-of play markers or boundaries including fences or railings and field conditions such as holes, lips on grass infields and lighting conditions.
9. One person at a time in the on-deck-circle. Swing only one bat while taking practice swings. Use a bat ring that will not slide off the thick end of the bat.
10. Always use approved helmets for all batting, catchers, base running and base coaches.
11. Be aware of the potentially serious injuries to your ankles, knees and legs if you do not follow correct procedures in base running. Slide only as directed by and using only techniques taught by your coach.
12. Be aware of instructions regarding communication between players, i.e. calling off players on fly balls, awareness of backstops and field boundaries and cutting off throws, etc.
13. Notify the coach immediately if injured.

BASKETBALL

When a person is involved in any athletic activity, an injury can occur, especially in a contact sport. Basketball is a highly competitive, fast-action game that places great physical demands on the players. One should be aware the information presented in these safety guidelines is to inform the athlete of proper techniques and inherent dangers involved with this particular activity. There is a chance of broken bones, severe concussions, and back injuries, which could lead to some form of paralysis. Not all potential injury possibilities in this sport are listed, but athletes should be aware that fundamentals, coaching and proper-fitting equipment are important to the safety and enjoyment of the sport.

1. Proper warm-up is essential before strenuous activity takes place.
2. Clothing and shoes should fit properly, be comfortable and allow maximum physical effort and allow dissipation of heat.
3. Perform only those skills and techniques as instructed and/or supervised by your coach.
4. Travel to and from off-campus facilities and practice/competition sites must be in accordance with school procedures.
5. Be aware of throwing basketball from other parts of the gym.
6. Be aware of your surroundings both home and away including but not limited to proximity of bleachers and courtside obstructions such as basket supports, lighting, access to and from courts, and court surfacing.
7. Be especially aware of the danger of illegal actions such as undercutting another player or grasping/hanging on the rim.
8. Players whose vision requires correction must wear shatterproof glasses or lenses. Glasses must be mounted in break resistant frames and must be held in place by an elastic strap.
9. Remove all jewelry and metal hair fasteners and other body adornments as required by rules and regulations for basketball.
10. Make sure you drink adequate water to prevent dehydration; ask you coach for consumption guidelines based on the day's activity.
11. Notify the coach immediately if injured.

CROSS COUNTRY

When a person is involved in any athletic activity, an injury can occur. One should be aware the information presented in these safety guidelines is to inform the athlete of proper techniques and inherent dangers involved with cross-country. There is a chance of broken bones, muscle and soft tissue and back injuries, which could lead to some form of paralysis. Not all potential injury possibilities in this sport are listed, but athletes should be aware that fundamentals, coaching and proper safety equipment are important to the safety and enjoyment of the sport.

1. Proper warm-up is essential before strenuous activity takes place. Be aware of the potentially serious injuries if you do not follow correct procedures in stretching, running and conditioning.
2. If you wear eyeglasses, contact the coach for proper fitting of safety lenses, appropriate frames that are compatible with running. If you have a bi or tri-focal lens, contact your doctor to provide the best len(s) combination for running on surfaces with sudden changes in elevation.
3. Perform only those skills and techniques as instructed and/or supervised by your coach.
4. Be sure all equipment, especially shoes, is fitting properly before each day's activity. Be cautious when running on slick surfaces.
5. Travel to and from off-campus facilities and practice/competition sites must be in accordance with school procedures.
6. Remove all jewelry and metal hair fasteners and other body adornments as required by rules and regulations for cross-country.
7. Be aware of your surroundings both home and away including but not limited to surface conditions, obstructions in the proximity to the cross-country course and safe entrance/egress to/from the course and the locker room.
8. Wear outer and under garments appropriate for humidity and temperature.
9. In order to help protect the safety of all squad members, squad members with physically limiting injuries and/or health conditions must inform the coach prior to each day's activity of limiting conditions and participate only to the extent allowed by the coach.
10. Hydration is essential with frequently scheduled drink breaks during practice and drinks available during all contests. Players should hydrate themselves frequently during practice and meets and follow the coach's direction on hydration prior to and following practices and meets.
11. Notify the coach immediately if injured.
12. Practice only when your coach is present.
13. Run on only the course outlined by your coach. If running along a road, use the sidewalk and run single file. Avoid heavily traveled streets and intersections.
14. Run in pairs in unfamiliar territory.
15. When running on or near a roadway, always run facing the oncoming traffic.
16. Beware of dogs.
17. Be ware of objects thrown from cars and from car doors opening. Runners should be familiar with basic recognition of heat exhaustion, heat stroke, sprained ankles, shin splints and be familiar with basic first aid treatment for those conditions.

18. If runners use roads for training, then state and federal highways should be avoided. It is recommended to use remote country roads which have the following:

- a. Adequate shoulder width allowing two vehicles and a runner to simultaneously pass in a safe manner anywhere during the training run.
- b. No drainage ditches or embankments where runners could slip from the road shoulder and fall down an embankment or fall into a drainage ditch.
- c. If guardrails are installed along the road used for training, this usually indicates an unsafe walking/running condition. Such areas should be examined in detail for safety of runners before allowing any runner to use the roadway. If the roadway is unsafe, don't use it.
- d. All runners should run on the left side of the road at all times. Crossovers at the midpoint of the run should be accomplished where there is adequate sight distance in both directions and at a point predetermined by the coach. Crossovers should be accomplished in a straight line perpendicular to the flow of traffic and as quickly and safely as possible. It is best if groups of runners cross at the same time.
- e. Runners should never use headphones or devices that block the sound of vehicles in the area or block verbal warnings given to the runners.
- f. Runners must obey all traffic signals.
- g. Coaches should use a motorized vehicle or some conveyance other than running to provide proper supervision of the runners while they are training.

19. If training courses are established in more populated areas, it is recommended to run on sidewalks. Running on busy streets without adequate clearance on the shoulders is not a recommended practice.

- a. If running on sidewalks is considered, make sure the sidewalks are level and without driveway cutouts as those cutouts are a trip and fall hazard.
- b. If running on sidewalks runners should run in single file when other pedestrians are present.
- c. If running on sidewalks, provide other pedestrians ample run so as not to impede their walk.
- d. If running on sidewalks, check for protrusions over the sidewalks such as tree limbs and branches, mail boxes, etc.

20. It is recommended coaches have a cell phone or some form of communication to seek help if a runner is injured during a training run. In addition, it is recommended the coach have access to a motorized vehicle to transport injured runners if and when necessary.

21. If runners are required to cross a state highway, they should do so all at one time, at a crosswalk or in an area predetermined to be safe for foot traffic. If crosswalks are not installed, it is recommended to use safety cones and signs warning vehicular traffic of the pedestrian crossing in an upcoming area.

22. As the end of the season approaches, the end of the daylight savings time takes place. All runners should complete all training runs in ample daylight.

LIGHTNING SAFETY

Facts about Lightning

- ❖ MOST LIGHTNING STRIKES (70%) OCCUR IN THE AFTERNOON.
- ❖ 20% BETWEEN 6 PM AND MIDNIGHT
- ❖ AND LESS THAN 1% OCCUR BETWEEN MIDNIGHT AND 6 A.M.

Guidelines:

1. Designate someone to monitor weather reports and determine whether to remove a team from the athletic site or event.
2. Obtain a weather report each day; be aware of potential thunderstorms.
3. Be aware of National Weather Service (NWS) thunderstorm "watches" or "warnings".
4. Know where the nearest safe structure or location is; these may include:
 - Get inside home or large building
 - Or inside an all-metal vehicle (non-convertible).
 - Inside home. Avoid using telephone except for emergency.

If outside and cannot reach a safe building or automobile. follow these rules:

- Do not stand beneath a natural lightning rod, such as an isolated tree.
 - Avoid projecting above the surrounding landscape (i.e. hilltop).
 - Get out of and away from open water.
 - Get away from tractors and other metal farm equipment.
 - Get off and away from motorcycles, scooters, golf-carts, and bicycles, put down golf clubs.
 - Stay away from wire fences, clotheslines, metal pipes, rails and other metallic parts that can carry lightning to you from some distance away.
 - Avoid standing in small isolated sheds or other small structures in open areas.
 - In a forest, seek shelter in a low area under a thick growth of small trees. In open areas, go to a low place such as a ravine or valley. Be alert for flash floods.
 - If you are hopelessly isolated in a level field or prairie and you feel your hair stand on end, indicating lightening is about to strike, drop to your knees, bend forward and put your hands on your knees. Do not lie flat on the ground.
5. Use the flash to bang method of predicting how close lightning is to striking.

Guidelines for Calling/Postponing Events because of Lightning Threat

- Watch for lightning when conditions are right (overcast, thunderstorms, rainy).
- Lightning may occur before, during or after a rainstorm.
- After a lightning flash, thunder will follow. This is known as flash to bang.
- The length of time between the flash and the bang is indicative of the distance of the lightning. The National Lightning Position Statement indicates that light travels faster than sound approximately 1 mile every 5 seconds.
- The length of time between the lightning flashes indicates the speed of the approaching storm. Divide the time to the thunder bang from the time the lightning flashes, (i.e. 30 second count divided by seconds=Lightning is 6 miles away).
- Lightning may actually precede the dark storm clouds.

30-30 Rules for Lightning Safety

- Postponement is suggested when lightning flashes and thunder bangs are 30 seconds apart (6 miles).
- Resume activity when flashes and thunder bangs have not been seen or heard for up to ½ hour (30 minutes).
