HONOR CODE

By signing this document, I acknowledge that the purpose of the Fairview Middle School IB Prep Magnet Program is the preparation of students for opportunities of higher learning and that any type of academic misconduct, including cheating or disrespect towards teachers and other students, may prevent them from accomplishing this goal.

Cheating inflates grades and forces teachers to act as disciplinarians. This places unnecessary stress upon the relationship between a teacher and student. This action is unfair to students who have put the necessary time and effort into their academic responsibilities. I agree that students' who are unwilling or unable to complete the curriculum with the highest degree of integrity do not belong in the Fairview Middle School IB Prep Magnet Program. An atmosphere of trust, freedom and integrity must be maintained. In order to do this, students must live by a code of honor.

The Honor Code is not only a document signed to prevent cheating, but also a statement as to the way students will live their lives. By signing this code, I am giving my word that I will refrain from academic malpractice and report any violations of this code to a teacher or administrator.

Academic misconduct is identified as, but not limited to any activity resembling the following:

The use of someone else's work for academic purposes; copying, plagiarizing, soliciting answers.

- informing someone who has not taken an examination of the test questions.
- Referring to unauthorized notes during an examination.
- Showing disrespect towards students and teachers by disrupting class and preventing others from having the opportunity to learn.
- Copying any works, including parts of works, from internet or other sources, and turning them in as one's own work.

I, _____, understand that academic misconduct of any kind damages my integrity as well as the Fairview Middle School IB Prep Magnet Program. Violation of the Honor Code will necessitate interaction of the teachers/administration and may result in removal from the Magnet program.
