

My name _____

Make a Paper Bag Cape!

Teachers: Use these directions for the activity on page 6 of your Teacher's Guide.

You will need:

large paper grocery bags
 (1 bag makes 2 capes)
 scissors

hole punch
 ribbon
 crayons, markers, paint

Step 1: Stand the bag up and use a marker to draw a line down the crease on one side of the bag. Continue the line along the bottom and then up the crease on the other side.

Step 2: Cut all along the line, so the bag will be cut in half. Each half can make one cape.

Step 3: Draw a curved line on the bottom of the bag. Cut out the semicircle.

Step 4: There is a fold on each side of the bag's bottom. Gently unfold both, and flatten the creases.

Step 5: Punch a hole in each unfolded tab and string a length of ribbon through. If you like, reinforce the hole with clear tape.

Step 6: Decorate the cape and attach the superhero badge!
