Internal Accounts Summary Report 2020-2021 Fiscal Year 2nd Quarter Results

May 2021

Leon County Schools Office of Internal Auditing

History

Internal accounts are the funds generated at the school site or through school fundraising efforts. These funds are held in a school specific checking account that is managed by the school financial accountant and principal. Internal accounts include but are not limited to funds derived from fundraiser proceeds, student fees, school athletic events, gifts and contributions made by music or athletic booster clubs, civic organizations, parent-teacher organizations; and all other similar monies, properties or benefits. In addition to funds directly related to student or general school activities, certain monies may be held in trust for organizations or departments or for various specified purposes.

Purpose and Methodology

The Office of Internal Auditing (OIA) conducts a monthly review of each school's internal accounts Month-End Reconciliation Process. The objective of the monthly procedures performed by the OIA is to determine compliance with specific governing authorities. Emphasis is placed on the school's completion of a timely and valid reconciliation of all internal accounts funds. Summary statistics detailing account balances, cash receipts, and expenditures are reviewed in an effort to assess the appropriateness of transactions. Further, deficit spending and Non-Sufficient Funds (NSF) account balances are reviewed and documented.

OIA staff utilizes guidance provided in Chapter 8 of the of Financial & Program Cost Accounting for Florida Schools ("The Red Book"), Leon County School Board Policy & Procedure 6610 – Internal Accounts and the Leon County School (LCS) Internal Accounts Manual as a basis for all review efforts.

Results

The information below includes summary statistics and details the exceptions noted by the OIA during the 2nd quarter (October, November, and December) of the 2020-2021 fiscal year.

Leon County Schools 2020-2021 Internal Accounts Summary Statistics – 2nd Quarter Only

December 31, 2020 Balances \$ **Elementary Schools** 910,501.29 Middle Schools \$ 596,478.85 **High Schools** \$ 1,590,152.77 \$ **Special Sites** 268,313.86 \$ Lively Technical College 2,155,686.27 5,521,133.04 Total

Variances

The primary objective of the reconciliation process is to identify and resolve any variances between the balances included on the bank statement and the balances detailed in the Skyward Accounting Software School Based Activity Accounting (SBAA) module. Upon receipt of the bank statement, the School Financial Accountant (SFA) must complete various reconciliation steps including but not limited to posting interest, clearing checks, and verifying deposits. The SFA must research any discrepancies and post appropriate journal entries to resolve the exceptions. Further, consideration is given to the typical adjustments that are necessary to properly complete the reconciliation process such as outstanding checks, deposits in

transit, NSF checks, change fund and petty cash balances. Month end close-out procedures should not be finalized until all exceptions have been properly researched and corrected.

The table below details variances noted by school for the 2nd Quarter of the 2020-2021 fiscal year. The results presented reflect instances where internal accounts records were not properly reconciled and corrected prior to finalizing month-end close-out efforts.

Timeliness of Reconciliation Efforts

The LCS Internal Accounts Procedures Manual requires monthly bank reconciliations. The manual requires the completion of the bank reconciliation process by the 15th day of the month following the closing date on the bank statement. The timely completion of the reconciliation process is vital to maintaining current and accurate balances for all internal accounts funds. The table below details instances where reconciliation efforts where not completed within the established timeframe. The results are presented by school for the 2nd Quarter of the 2020-2021 fiscal year.

Principal Required Monthly Review

The month-end reconciliation process includes supervisory review as follows:

- 1. The principal must open, review, sign and date the monthly bank statement prior to providing the statement to the SFA to complete the month-end reconciliation process.
- 2. The principal must review, sign and date the Bank Reconciliation Report after the SFA has initiated monthly reconciliation efforts.
- 3. The principal must review, sign and date the Principal's Monthly Report after the SFA has initiated monthly reconciliation efforts.

Each of these review steps is intended to enhance the reconciliation process and increase the accuracy and reliability of the data. The review of the bank statement by the principal prior to providing the document to the SFA to begin the reconciliation process allows an opportunity for an independent review and identification of any unusual transactions and/or discrepancies. The review of the Bank Reconciliation Report by the principal provides additional assurance that all variances have been resolved prior to finalizing the month-end close out process. Finally, the review of the Principal's Monthly Report by the principal provides an opportunity for review of detailed information for all individual internal accounts balances including year-to-date receipts, disbursements, NSF checks, deficit spending, etc. This allows the principal to be able to make informed decisions regarding past and future internal accounts transactions.

OIA utilizes signatures and signature dates to evidence that each of the aforementioned review efforts have been completed and fully documented. The table below provides summary data for the 2nd Quarter of the 2020-2021 fiscal year compiled by OIA after completion of a review of the Principal Monthly Report and other relevant documentation. The results presented in the table reflect instances where adequate supporting documentation was unavailable to fully determine that the principal's required monthly review had been completed.

Internal Accounts Purchase Orders

The Leon County School's Internal Accounts Manual mandates the issuance of an internal purchase order for the purchase of an individual item in excess of \$100, or for a total invoice in excess of \$500. Further, all purchases over \$1,500 must be forwarded to the District purchasing department for approval. The purchase order approval process has been automated through the SBAA module of the Skyward Accounting Software.

OIA reviews a sample of disbursements processed each month to determine compliance with the aforementioned internal purchase order requirements. Any deviations from the established guidance is noted in the table below.

Deficit Spending

The Red Book mandates that purchases from internal accounts shall not exceed the resources of the applicable student activity/project account, except for items acquired for resale or items authorized by district school board rules. The Red Book further requires that at no time shall a trust account have a deficit.

The table below provides summary data obtained as a result of a review of the Principal's Monthly Report for each school site for the 2nd Quarter of the 2020-2021 fiscal year. The results presented detail instances where deficit spending was identified based on an analysis of the Principal's Monthly Report.

Non-Sufficient Funds Checks (NSF)

Guidance provided by *The Red Book* advises that the principal is responsible for seeking reimbursement for any unpaid checks returned by the bank. *The Red Book* reads as follows:

A check can be declared uncollectible and written off the books only by action of the district school board or designated officer. This action will be taken only after every legal and reasonable effort at collection by the principal has been exhausted.

The table below provides a snapshot of the NSF checks that remained uncollected as of September 31, 2020.

Internal Accounts Compliance Recommendations

The Leon County Schools Internal Accounts Manual and Chapter 8 of the Red Book provides guidance regarding proper processing of internal accounts transactions. In order to properly manage internal accounts, school administrators and SFAs must work diligently to comply with guidance outlined in all governing authorities and adhere to sound business practices. In the monthly review process conducted by OIA, efforts are undertaken to determine compliance with established guidance. Some of the topics of consideration include but are not limited to, proper handling of stale dated and NSF checks, absence of manual adjustments, appropriate dual signature authority on checks issued and accuracy of journal entries posted. The table below will outline exceptions noted during the 2nd quarter of the 2020-2021 fiscal year and provide recommendations for process improvement in line with relevant governing authorities and sound business practice.

Conclusion

The table above provides month-end balance by school for each month of the 2nd Quarter of the 2020-2021 fiscal year. The information presented in this report is summarizes selected internal accounts data. These results are based on analysis of documentation provided to the OIA. The documentation utilized to present these results include Bank Statements, Bank Reconciliation Reports, Principal's Monthly Reports and selected internal accounts information included in the SBAA module of Skyward Accounting Software. The information is being presented as a tool for school principals, SFAs, district management and other interested parties.
