# Free & Editable Choice Boards

Choice Boards are ideal for differentiation of tasks based on student interests and abilities and can be utilized across all subject areas. Since most learning objectives are geared toward specific ages or grade levels, Choice Boards are ideal alternatives for your lower performing and higher performing students. They work perfectly for early finishers, morning work, or homework. Additionally, the concept of "choice" allows for more student-centered learning and ownership.

The following choice boards are EDITABLE for you to type in the tasks that you prefer. You may also type in the number of tasks that you'd like students to complete by a specific due date. Formats are provided for 4, 6, 9, and 12 choices
